

FX – 550

Frequently Asked Questions

1. How Do I Adjust the FX-550 Volume?

To adjust your FX-550 volume, check the Gain knob on your AP-150 amplifier and make sure it is turned up. Now, when a tone is playing, turning the FX-550 knob will adjust the volume as well. Note: The FX-550 remembers the volume setting for each tone. If you turn the volume down while a tone is playing, the next time you play that tone it will begin playing at the lower volume.

2. I lost my users guide, can I download a copy?

Yes, you can download the latest FX-550 Users Guide [here](#). Note: Adobe Reader is required.

3. How do I know if I have the latest firmware running on my FX-550?

The latest firmware version for the FX-550 is 0.9.22. To check your FX-550 firmware version, navigate your FX-550 to "settings" and select "Version".
